USING THE COMMODITY CODE GUIDE

The Commodity Code Guide contains applicable codes for AgriStability participants farming in Saskatchewan. Participants can reference this guide to fill out their AgriStability/AgriInvest program forms.

If you have a farm operation outside Saskatchewan and report Saskatchewan as the province of your main farmstead, you may require additional codes. Codes related to other provinces can be found online via the Agriculture and Agri-Food Canada website at www.agr.gc.ca.

Helpful Hints

- When reporting the amount of **Purchased Inputs (Section 10)** on hand at the end of a fiscal year (e.g., grain, forage, fertilizer and fuel), use the [Commodity Codes List](#) and the [Allowable Expense Codes List](#) in this guide.
- When reporting **Deferred Income and Accounts Receivable (Section 11)**, which is income owed to you for goods or services delivered in the fiscal year, use the [Commodity Codes List](#), [Program Payments List](#) and/or *Code 9572 Resales, Rebates, GST/HST* for allowable expenses.
- To ensure proper reporting of pooled commodities, any interims, adjustments or final payments from the sale of pooled commodities that are not being finalized until 2024 should be recorded as a receivable adjustment in **(Section 11)** of the program forms, using the correct commodity code. This will help account for any payments still owed for the sale of pooled commodities in the 2023 program year.
- When reporting **Accounts Payable (Section 12)**, which is an expense owed for goods and services received but not yet paid for in the fiscal year, use the [Commodity Codes List](#) and [Allowable Expense Codes List](#) in this guide.

<p>Please note, Biomass Hemp is a non-allowable commodity for AgriStability starting in the 2023 program year. The production, opening, and ending inventory of biomass hemp should not be included in crop inventory. All income earned from biomass hemp sales should be reported as other income. Any input costs (fertilizer, chemicals, seed, fuel, and salaries) associated with growing and harvesting biomass hemp should be reported as other expenses. We encourage you to submit an Additional Information form with the number of acres of biomass hemp grown in the program year.</p>
